INTERNATIONAL SEARCH REPORT

International Application No
PEP/EP2004/010502

A. CLASSII IPC 7	FICATION OF SUBJECT MATTER H02M3/335				
According to	International Patent Classification (IPC) or to both national classification	ation and IPC	i		
B. FIELDS	SEARCHED				
Minimum do IPC 7	cumentation searched (classification system followed by classification HO2M	on symbols)	*		
Documentat	ion searched other than minimum documentation to the extent that s	uch documents are includ	ded in the fields searched		
Electronic da	ata base consulted during the International search (name of data bas	se and, where practical, s	search terms used)		
C. DOCUME	ENTS CONSIDERED TO BE RELEVANT				
Category °	Citation of document, with indication, where appropriate, of the rele	Relevant to claim No.			
Υ	PANOV Y ET AL: "Adaptive off-time control for variable-frequency, soft-switched flyback converter at light loads" POWER ELECTRONICS SPECIALISTS CONFERENCE, 1999. PESC 99. 30TH ANNUAL IEEE CHARLESTON, SC, USA 27 JUNE-1 JULY 1999, PISCATAWAY, NJ, USA, IEEE, US, 27 June 1999 (1999-06-27), pages 457-462, XP010346913 ISBN: 0-7803-5421-4 the whole document		1-4,9		
X Furth	ner documents are listed in the continuation of box C.	Patent family me	embers are listed in annex.		
° Special categories of cited documents:					
"A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier document but published on or after the international filling date "L" document which may throw doubts on priority datim(s) or which is clied to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "T later document put or plate or priority date and the invention or particular and the cannot be considued occurrent of particular and the considued occurrent is comments, such comments, such comments, such comments, such comments, such comments, such comments.			blished after the international filing date not in conflict with the application but and the principle or theory underlying the cular relevance; the claimed invention dered novel or cannot be considered to dive step when the document is taken alone cular relevance; the claimed invention tered to involve an inventive step when the theined with one or more other such docubination being obvious to a person skilled		
	int published prior to the international filing date but an the priority date claimed	in the art. & document member of the same patent family			
Date of the actual completion of the international search 10 January 2005 28/02/2005			·
